

**Ice skating  
wherever  
you want.**

**Whenever  
you want.**

**ICEFLOOR365**

# ICEFLOOR365

Glide over the ice surrounded by Christmas market stalls and stands selling mulled wine – an ice skating rink makes every place a special attraction. Building one of our ice skating rinks is affordable and uncomplicated: ICEFLOOR365 requires no electrical connection or expensive technology and can be used immediately, no matter what the weather is like. It is guaranteed to be a magnet for visitors young and old!

## Cost effective

There is absolutely no need for expensive investment in special devices with ICEFLOOR365. The surface of ICEFLOOR365 is maintenance-free. Spray with a high-pressure cleaner every 14 days and you're done. And if ICEFLOOR365 shows signs of wear after years of use: simply sand off the top layer, a bit like you do with parquet flooring.

## Austrian Quality

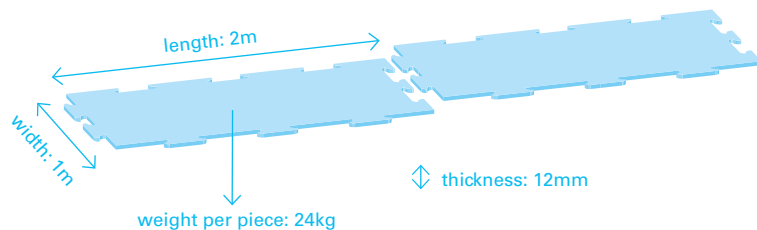

Reliable processing by proven employees is just as much a matter of course as compliance with short delivery times. We attach great importance to individual customer care by highly trained employees. We deliver precisely the standard you need as a professional.

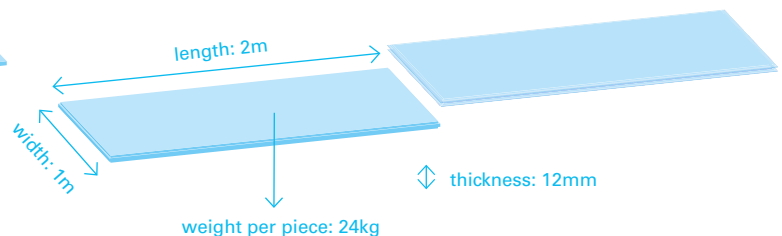

## Economical

Ice skating rinks make cities more liveable. Unfortunately, running one requires a lot of energy and valuable resources. Not so with ICEFLOOR365: instead of ice, slick plastic panels are used. The cost of cooling is thus 100% eliminated and summer can officially be declared ice skating season.

## Joint: puzzle system

## Joint: tongue-and-groove system

## Complete solutions from Small to X-Large.

With ICEFLOOR365, you receive a complete solution that is perfectly tailored to meet your needs. These synthetic ice rinks are perfect for every use and every budget, no matter how small or large.

- Construction of new arenas or renovation of existing arenas
- Synthetic ice rinks – indoor/outdoor
- Temporary synthetic ice rinks at events
- Mobile synthetic ice rinks
- Suitable for sporting events such as figure skating, ice hockey and Bavarian curling
